Subject: **DATA CORRECTION ON LEARNERS' RESOURCES SITUATION REPORT**

Date: **May 9, 2019**

1. The Division Consolidated LR Situation Report (per Division Memo No. 167, s. 2019) was submitted to the Central Office last April 30, 2019. However, there were discrepancies found in the figures reported, especially in the municipalities with newly created districts.
2. The CO has provided in the Google sheet the range in which the inconsistency was found, particularly in Grades 1 and 5. **Column 'N'** indicates the sum of the actual quantity of LRs reported by the districts belonging to the same municipality vis-à-vis **Column 'O'** which indicates the quantity per BLR allocation as reflected in the IAR. Please see image below to illustrate the point:
