This Division

1. The Learning Resource Management Section (LRMS) had conducted its year-end (2020) LR Needs Analysis through a Google Form, with the participation of 481 schools across the division. A synthesis of the responses revealed that the schools feel the need to be reoriented on the standards of development and quality assurance of learning resources.
2. While this pandemic has indeed posed so much challenges to sustaining learning continuity in our schools, it has also paved way to accessibility of technical assistance from external resource experts via virtual platforms.
3. In this connection, the LRMS will spearhead a two-day Refresher Webinar on Development and Quality Assurance of Learning Resources on January 21-22, 2021. The webinar aims to capacitate the participants on various component and processes of the LRMS framework as reflected in the activity matrix below:
